

COMMITTED TO THE ENVIRONMENT

Newfoundland Power is committed to providing electrical service to its customers in an environmentally responsible manner. In fulfilling this commitment, the Company will incorporate environmental issues into decision-making to meet present needs without compromising future generations.

- The Company is committed to meeting the requirements of all applicable environmental legislation, regulations, and accepted standards of environmental protection.
- The Company is committed to managing its activities in a way that is consistent with industry practice including the Sustainable Electricity Program and in ways that support the environmental policies of the federal, provincial and municipal governments.
- Environmental monitoring and audits of our operations and environmental management system will be conducted regularly.
- The Company is committed to the prevention of pollution and the conservation of natural resources.
- The Company will set and review environmental objectives, targets and programs annually.
- The Company is committed to continual improvement in environmental performance.
- The Company will make available its policy and knowledge on environmental issues to customers, employees and the general public.
- The Company is committed to supporting and participating in community-based projects that focus on the environment. The Company recognizes the contribution environmental groups can offer on environmental issues and will participate in meaningful dialogue with these groups.
- The environment is the responsibility of all employees and Company contractors. The Company will ensure that its employees and contractors are trained to enable them to fulfill their duties in an environmentally responsible manner.
