

IT SPECIALIST

ST. JOHN'S— CLOSING DATE: JANUARY 9, 2019

COMPETITION NUMBER: NPJP-2019-19935

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Technology Team, you will guide the development and acquisition of application solutions that are consistent with the Company's current and planned Contact Center technology and business requirements. You will be responsible for ensuring the Company's software applications operate effectively; consulting with others within the Technology team to address technology issues and provide solutions; liaising with external vendors and contractors; ensuring that on-going enhancements and maintenance of existing software applications support business objectives and technology direction; and assisting with business case development for technology investments.

Your qualifications include a university degree or college diploma in Information Technology, supplemented by 5 years' experience in enterprise software design, development, integration, implementation and support. Experience in a Contact Center environment with the Avaya Aura suite of technologies is a definite asset. You thrive in a fast-paced, multi-project environment where your ability to transition quickly between projects and work tasks is required. You are proactive and business-focused, with excellent project management skills.

Apply online at newfoundlandpower.com/en/About/Careers/Career-Opportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
