

# ENERGY CONSERVATION PROGRAM SPECIALIST (TEMPORARY)

CORNER BROOK – CLOSING DATE: JANUARY 28, 2019

COMPETITION NUMBER: NPJP-2019-20058

## Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Team, your key responsibilities will include developing and implementing outreach plans for business customers; developing relationships with key stakeholders; managing new program participant leads; making continuous improvement to current programs; establishing and monitoring program budgets; reviewing projects to determine technical eligibility and performing on-site inspections to confirm project details; and, maintaining knowledge of local, national and industry trends and legislation regarding energy conservation technologies and programs. You will represent takeCHARGE's suite of business and residential programs at trade shows and forums, and deliver presentations for schools, associations, municipalities and other stakeholders. Newfoundland Power customer relations work will also be required.

Your qualifications include a Bachelor's degree in Business or Environmental Science, a 3-year diploma in Engineering Technology (Mechanical or Electrical), or related discipline, supplemented with relevant experience. An equivalent combination of education and experience may be considered. Previous project management experience is an asset. You must hold and maintain a valid driver's license.

You are creative and motivated with strong analytical, organizational and customer service skills and thrive in a team environment. You have a keen interest in energy efficiency and a demonstrated aptitude for understanding energy efficiency technologies. You have a proven ability to generate results, manage multiple projects, build strong partnerships and meet tight deadlines. Travel will be required.

Apply online at [newfoundlandpower.com/en/About/Careers/Career-Opportunities](http://newfoundlandpower.com/en/About/Careers/Career-Opportunities). We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.  
We'll be there.
