

POWER SYSTEM OPERATOR IN TRAINING

TOPSAIL ROAD – CLOSING DATE: MAY 8, 2019

COMPETITION NUMBER: NPJP-2019-22230

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

This is a training position in the day to day operation of the electrical system. As a valued member of the System Control Team, you will: learn to monitor, regulate and control equipment associated with the Company's electrical grid through our SCADA system; receive customer trouble calls; dispatch trouble crews; direct switching for isolation and restoration of system components; log system data and interruptions; and, perform other related duties.

Your qualifications include graduation from a three-year Electrical Engineering Technology program from an institution recognized by AETTNL. You have good oral and written communications skills; a strong interest in, and an aptitude for work with, computers; and are willing to complete the three-year Power System Operator Training Program. There is a residency requirement for this position, whereby your primary residence must be within 40km of the Topsail Road office. Compensation is per the current Collective Agreement.

Apply online at newfoundlandpower.com/en/About/Careers/Career-Opportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
