

INVENTORY CONTROL ANALYST (TEMPORARY 1-YEAR)

ST. JOHN'S – CLOSING DATE: JULY 19, 2019

COMPETITION NUMBER: NPJP-2019-24504

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Finance Team, you will play a key role in forecasting, replenishing and managing inventory requirements of the Company. You will be responsible for: maintaining optimal inventory levels and re-order points for pole line hardware, equipment and associated components; planning and overseeing inventory cycle counts; forecasting monthly and annual material requirements based on historical data and planned projects; preparing monthly reports on inventory levels and usage patterns; liaising with Operations and Engineering departments to forecast for planned work; and, maintaining an approved inventory catalog.

Your qualifications include a Bachelor's Degree in Business or a three year Business Management Diploma with 1-4 years of relevant experience and proficient computer skills. You have the ability to work independently and display strong organizational, analytical and decision making skills.

Apply online at newfoundlandpower.com/en/About/Careers/Career-Opportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
