

SECURITY ANALYST

ST. JOHN'S – CLOSING DATE: February 12, 2021

COMPETITION NUMBER: NPJP-2021-31978

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuing advancement and a competitive compensation package, have we got an opportunity for you! You are a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Cybersecurity team, you will be responsible for ensuring that the Company's digital assets are protected from unauthorized access. This includes securing both online and on-premise infrastructures, reviewing metrics and data to filter out suspicious activity, identifying and mitigating risks before breaches occur, keeping the Company's security systems up to date, implementing Group Policies to secure windows devices and creating documentation and planning for all security-related information, including incident response policies and standards. You will be regularly involved in the planning and implementation of a variety of capital projects to help secure the Company's digital assets.

Your qualifications include a university degree or three year college diploma with a concentration in cybersecurity and infrastructure, supplemented by a minimum of 4 years of related experience. Enrolment in or recent completion of security designations such as CISSP, SANS GSEC, Comp TIA Security+ or Certified Ethical Hacker (CEH) is desired. You must demonstrate proficiency in vulnerability management, risk analysis, privileged access management, incident response, including playbooks and table top exercises, log collection analysis, cyber security training and awareness and threat hunting. You must have the ability to communicate results in an effective and organized manner.
