

ENGINEERING TECHNOLOGIST

ST. JOHN'S – CLOSING DATE: APRIL 2, 2018

COMPETITION NUMBER: NPJP-2018-15091

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of the Regional Engineering Team you will be responsible for: designing and managing overhead and underground line construction; providing technical leadership to construction crews and contractors; interacting with customers, councils and other regulatory bodies; preparing estimates and material lists for job preparation; preparing engineering reports to identify, evaluate, and make recommendations for system upgrades to improve the operability of the power system; and, assisting with the design and execution of other distribution engineering projects as required.

Qualifications include a diploma in Electrical Engineering Technology. You must hold and maintain a valid motor vehicle driver's license. Proficiency with computer-based programs such as the Microsoft Office applications and AutoCAD is necessary. You have excellent planning and organizational skills. There is a residency requirement for this position, whereby your primary residence must be within 40 kilometres of the Duffy Place office.

Apply online at newfoundlandpower.com/en/About-Us/Careers/Career-Opportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
